BAT-Fire

The BAT-Fire Commercial FACP Communicator is the ideal solution for system integrators who want a versatile fire communicator. Equipped with dual path IP and LTE-M cellular technology and four programmable input/outputs, system integrators can save money, maximize install flexibility, and skip the 4G sunset.

Why choose BAT-Fire

Reduce configuration time

Near-universal FACP compatibility with Contact ID, dialer-capture, and dialer-less FACPs.

Minimize install complexity

Operate at either 12V or 24V and use minimal current to ensure your backup power requirements can be met.

Meet local regulations

Can be configured to comply with any of the most recent UL & NFPA guidelines.

Save money

Eliminate the inevitable LTE/4G sunset by installing a fire communicator that's 5G-ready.

Increase RMR

Monitor multiple auxiliary building system functions with four programmable inputs and outputs.

Reduce service hassles

Remote programming, troubleshooting and managed over-the-air firmware upgrades.

Maximize flexibility

Sole path cellular, IP, or dual-path communications.

Simplify your day

Works with all panels that use Contact ID or dialer capture.

Features

- Supports 12V and 24V FACPs

- Sole path cellular, IP, or dual-path communications

- CAT-M1 cellular is 5G-ready

- Supports Contact ID reporting format

- Trouble event detection and reporting

- Four programmable input/outputs

- Alarm capture via phone line interface or standard alarm outputs

- UL certified for usage in commercial applications

- At-a-glance system status via front panel LEDs

Technical Specifications

Physical	
Housing Dimensions	8.6 x 5.8 x 2.2 in (21.8 x 14.6 x 5.5 cm)
Weight	13.2 oz (372.9 g)
Mounting Fasteners	#6 screws and wall anchors (included)
Cover Securing Screw	#6 screw (included)
Antenna	External (included)
Device Specification	
Reported Indications	Cover Tamper
Current Draw	185 mA (Nominal) @ 12 VDC 100 mA (Nominal) @ 24 VDC
Input Voltage	10V-27VDC
Environmental	
Operating Temperature	32°F-120°F (0°C-48.9°C)
Maximum Humidity	85% non-condensing relative humidity
Communications	
Central Station Receivers	Bosch Conettix: D6600, ITS-D6686-UL, D6100IPv6
Certifications	
UL 864 10th Edition, ULC-S559, UL 1610, ULC-S304	
Models	
BAT-FIRE-VZ	BAT-Fire, Verizon™
