

159MC-4

159MC-8A

### Description

The modular coupler may be used as an in-line device for connecting and/or extending two modular plug-ended line cords.

Extends modular circuits without the hassle and expense of hard-wired connecting blocks.

### Features

- High impact, fire-retardant thermoplastic
- Reverse or straight through wiring
- 4, 6, or 8 conductor

### Specifications

<b>Materials:</b>	High impact, fire-retardant thermoplastic
<b>Contacts:</b>	Spring tempered phosphor-bronze 0.018" diameter 50 microinch hard gold plating minimum 100 microinch underplate with sulfamate nickel
<b>Contact Pressure:</b>	100 grams minimum
<b>Insulation Resistance:</b>	500 megaohms
<b>Contact Resistance:</b>	10 milliohms maximum
<b>Voltage/Current:</b>	140 VDC at 2 amps

### Product Information

Suttle Part Number	Description
159MC-4	4-conductor coupler, reverse wiring, ivory housing
159MC-6	6-conductor coupler, reverse wiring, ivory housing
159MC-8A	8-conductor coupler, straight wiring, gray housing
159MC-8B	8-conductor coupler, reverse wiring, gray housing
