

4232CBM

Connected Building Module

Honeywell Home 4232CBM Connected Building Module is designed to support VISTA® security panels with a variety of Honeywell Home and third-party hardware and software products.

This module is intended for applications such as home or building automation. It enables communication between products by providing high-speed RS232 and RS422 serial interfaces for connection to external systems and a standard four-wire ECP interface for connection to the security control panel.

FEATURES AND BENEFITS

- Mounts directly in control panel cabinet using double-sided tape (included)
- Four status LEDs for system troubleshooting
- Three-wire RS232 or four-wire RS422 interface to external equipment
- Driver software is required to use this module; this software is provided separately. To obtain drivers, consult the third party vendor with whom you need to work.
