

SAVE \$99

**BAT-CONNECT
5G READY
Communicator**

ON EVERY SUNSET DEVICE REPLACEMENT

With another cellular sunset fast approaching, security pros are getting ahead of the network shutdowns. We want to help you do the same with our Sunset Rebate that takes the sting out of the 3G/CDMA sunset service call by saving you money.

Regardless of manufacturer, Alula will pay you \$99 for every old radio you replace with a BAT-Connect Communicator. With no limits on use, this sets you up for significant savings and gives you a great reason to start replacing your sunset devices now.

Why BAT-Connect?

Save money by eliminating the inevitable LTE/4G sunset and installing a communicator that's 5G-ready

Simplify your day-to-day by stocking a single communicator that reduces the number of skus you carry on your truck and eases the installation experience

Complete more installations in a day with automatic panel detection and configuration

Untap potential RMR and boost retention rates by offering smart phone control, cameras and system automation capabilities

Reduce return trips and add security for your customers with multiple forms of alarm communication

Don't wait—start saving **and** replacing today!
